

Interview with Steven Chen

The ICT website looks fantastic – did you design it all yourself?

*Yes. its goes better than I was expect.*

How long did it take you to create?

*Quite a Long time, but I cant remember exactly because I develop into afterwards.*

You're doing DiDA at school – how do you like that?

*Yes, I love DiDA very much*

Has doing DiDA helped you improve your ICT skills?

*Its quite good, It uses some programs that wont be used in ICT.*

When did you first start getting interested in computers?

*Since when I was very young, im very intresting at these teconology stuffs.*

What was the first thing you did on a computer?

*I delete all the files in C:/WINDOWS that been detected as virus. (in Windows 98, but Anti virus couldn't do nothing because it was all improtant files.) but I was proud of myself. before i notice that it couldn't be running again few days after.*

What do you hope to do after year 11 and then after you leave Y Pant?

*I would like to do some designing, no matter if is on computer or not. I quite like doing it.*

What advice would you give to any younger pupils who would like to get more involved in ICT?

*Sometimes is more than just about typing work. Its about not afrad to gives a try. If you intresting doing website. DiDA would be much better choice :)*
