Science

Homework Competition

Albert Einstein

Sir Isaac Newton

I'm sure that you have probably all heard of Albert Einstein and Sir Isaac Newton. They are 2 very famous and important Physicists from the past. Well, believe it or not, there have also been some important and famous Welsh Physicists!

Your task is to find out who they were. Pick a Welsh physicist and make an A4 information poster about them. You could include a photo of the scientist and where they were born etc. (general information) and more importantly, how they made a contribution to science.

To help you make a start, as well as using the Internet, have a look at the 4 posters just outside the Science corridor. They all show information about some of the famous Welsh scientists, past and present.

Please hand in entries to Mr Gardner, Mr Browne or Dr Jones. Remember, there are not only points and prizes for the top 3, but also points for your house for every entry!!

Good Luck!!
The Physics Department
